Se presentó la Guía para Integrar la Sostenibilidad en las Empresas y talleres dirigidos a productores agropecuarios, empresarios y funcionarios públicos para fomentar la resiliencia al cambio climático

San Salvador, El Salvador, 11 de julio del 2019

RITER leaders Graduate in Forest Management

The last workshop (in a series of 9) of the Territorial Innovation Networks (*RITER in Spanish*) for Sustainable Forest Management was held on Saturday April 27 in the Ejido Noh Bec, Quintana Roo. The workshops focused on improving the capabilities of key actors in Sustainable Forest Management. [Read more](#)

In Quintana Roo, TNC has brought together fishermen, hotel owners, tour operators, government representatives, developers, coral experts and academics to find a solution to damaged coral reefs. In addition to this effort, TNC led the training of the first team of guardians of the reef. [Get to know them!](#)

Dialogues for Water Sustainability in Mexico

In the process of the Dialogues, there have been a series of important achievements which allow us to measure the project's success to date.

The Nature Conservancy's bold plan to save the world's oceans

Last April, TNC announced at TED in Vancouver, Canada, a plan to drastically

expand the conservation of oceans worldwide. With the delivery of blue bonds for ocean conservation in 20 countries over the next five years, TNC will help ensure the new protection of up to 1.5 million square miles (4 million km²) of the most crucial ocean habitats for the world's biodiversity — a 15 percent increase in the amount of protected ocean that currently exists.
